## Margin Risks Disclosure Statement

If you borrow funds from Merrill Lynch to purchase securities, Merrill Lynch's collateral for the loan will be the securities purchased, other assets in your margin account, and your assets in any other accounts at Merrill Lynch or any of its affiliates. If the securities in your margin account decline in value, so does the value of the collateral supporting your loan, and, as a result, we can take actions, such as issue a margin call and/or sell securities or other assets in any of your accounts held with us, in order to maintain the required equity in the account.

It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- You can lose more funds than you deposit in the margin account.

## SIPC Information

You may obtain information regarding the Securities Investor Protection Corporation (SIPC),

- We can force the sale of securities or other assets in your account(s).
- We can sell your securities or other assets without contacting you.
- You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.
- We can increase our "house" maintenance margin requirements at any time and are not required to provide you advance written notice.
- You are not entitled to an extension of time on a margin call.

## Merrill Lynch Disclosure Update

Merrill Lynch, Pierce, Fenner & Smith Incorporated offers its products, accounts and services through different service models (e.g., self-directed,

full-service). Based on the service model, the same or similar products, accounts and services may vary in their prices or fees charged to a client.

## Limits on Foreign Ownership of Certain Communications, Maritime and Aviation Issues

Certain laws impose restrictions on foreign ownership of certain communications, maritime, aviation and other specialized businesses. These restrictions limit the foreign ownership of securities in these industries to a percentage of the outstanding shares.

If Merrill Lynch is notified that the percentage of foreign ownership for a particular issue exceeds the predetermined limit based on the Depository Trust Company's allocation process, Merrill Lynch will

identify the last shares purchased by a customer and may need to liquidate the position causing the overage. Reasonable efforts will be made to contact the affected customer or customers in advance of the liquidation.

A current list of the impacted issues can be found on the Depository Trust Company website at:

## Notice Regarding Payment for Order Flow and Order Routing Information

In accordance with SEC customer disclosure rules, Merrill Lynch, Pierce Fenner & Smith Incorporated (“Merrill Lynch”) is hereby informing you that it does not receive payment for order flow from venues to which Merrill Lynch routes its customer orders in equity securities. Merrill Lynch may receive rebates from and pays fees to certain registered securities exchanges for providing or taking liquidity on those exchanges, according to those exchanges’ published fee schedules approved by the SEC.

We handle your order so as to obtain a competitive execution price and we regularly monitor the quality of our executions. SEC regulations require that Merrill Lynch disclose the venues to which we route our customers’ orders for equity securities, as well as certain material aspects of our relationships with those venues. For both exchange listed and over-the-counter equity transactions, Merrill Lynch equity

trading desks are market making desks and may be one of those venues where our customer orders may be routed for execution. If an order is executed with a Merrill Lynch equity trading desk, the trade confirmation will indicate that Merrill Lynch executed such order in a principal capacity.

If you would like a written copy of this information, or information concerning where your individual orders were routed and executed, please contact your Merrill Lynch representative. Our order routing information is updated quarterly and is available online at <http://corp.bankofamerica.com/business/ci/best-execution>.

*\*Please note: Orders placed through any automatic telephone trading service, electronic, or online trading systems cannot specify a particular market center for execution.*

## Customer Order Protection Disclosure

We have in place effective internal controls, including information barriers, to prevent the inappropriate sharing of order information among our equity trading desks. In this regard, each of our equity trading desks independently conducts its trading activities. To the extent permitted by rule or law, when a desk or trading unit, (e.g., including a market making desk which engages in block positioning and provides firm bid/offer quotes) handles your equity orders, other Merrill Lynch equity trading units or desks may separately transact - without knowledge of your orders - for

their principal accounts at prices that would satisfy your orders. Conversely, if your orders are handled by another of our equity trading desks or units and no attempt is made to obtain liquidity for your orders from the market making desk, you should understand that the market making desk may separately transact - without knowledge of your orders - for its principal accounts at prices that would satisfy your orders. In either case, the relevant equity trading desk or unit’s execution prices could be better, the same, or worse than the prices you receive for the same security.
